# Common MBA Project Viva Questions

| No. | Viva Question                                                   |
|-----|-----------------------------------------------------------------|
| 1   | Why did you select this project topic?                          |
| 2   | What are the main objectives of your study?                     |
| 3   | Which research methodology did you use?                         |
| 4   | What is your sample size and why did you select it?             |
| 5   | What are the major findings of your project?                    |
| 6   | What suggestions did you give based on your analysis?           |
| 7   | What limitations did you face during the study?                 |
| 8   | How is your project useful for students, companies or managers? |
| 9   | Which statistical tools or charts did you use?                  |
| 10  | What did you learn from this project?                           |

## How to Answer Confidently

- Read your abstract, objectives, methodology and findings properly.
- Keep answers short and connected to your project.
- Do not memorize every line; understand the logic.
- Prepare 5 important findings and 5 suggestions before viva.
- Carry PPT, report and questionnaire if required.

## Quick Viva Formula

Topic - Objective - Method - Data - Finding - Suggestion. If you can explain these six points clearly, you can answer most viva questions confidently.

## Academic Note

This document is a student guidance resource. Students should always follow their official university guidelines, guide instructions and academic honesty rules before final submission.
